which is the result of relaxation of the lingaments of that organ, and is known by a sense of heaviness and dragging pains in the back and s des, a d at times accompanied by sharp lancidating or shooting pains through the parts, will, in all cares, be removed by the medicine. There is another class of symptoms arising from IRRI-TATION OF THE WOMB, which Physicians call Nervousness, which word covers up much ignorance, and in nine cases out of ten the doctor does not really know whether the symptoms are the disease, or the di ease the symptoms. We can only enumerate them h re. I speak more particularly of Cold Feet, Palpation of the Heart, Impaired Memory, Wakefulness, Flashes of Heat, Languor, Lassitude and Limness of Vision.

I was obliged to get up as often as ten or twelve times du ring the night and in five months I lost about 50 pounds in weight. I called a physician, who attended her about three months, when he left her worse than he found her. I then employed one of the best physicians I could find, who attended her for about pine m-nths, and while she was under his care she did not suffer quite as much pain; he finally gave her up and said, "her case was incurable" For, said he, "she her such a combination of complaints, that medicine given for one operates against some other of her difficulties." About this time she commenced the use of Constitution Water, and to our utter astonishment, almost the first dose seemed to have the desired effect, and she kept on improving rapidly under its treatment, and now superintends entirely her domestic affairs. She has not taken any of the Constitution Water for about four weeks, and we are happy to say that it has produced a permanent cure-WM M. VANBENSCHOTEN.

coming year will have an almorbing futerest for every citizen. We are engaged in a gigantic civil war, the re sult of which none can foresee. It threatens a radica change in the institutions and principles upon which the Government was founded, and the destruction of the liberty and rights of the citizen, such as the people of no other nation have enjoyed, and t which may be attributed our unequaled progress in nat anal prosperity and greatness. The issue will soon be upon us, whether this free Government shall be preserved and maintained and the rights of the States under the Constitution perpetuated, or a powerful central authority be permitted to grow out of this war, obliterating State lines, State institutions, and all those checks upon the Federal Government, rights reserved by the States, which have constituted the excellence and supe riority of our nationality-States "one as the sea" for the common objects set firth in the Constitution, but "distinct as the billows" in the management of their purely demo tie affairs. These questions were involved in the recent elections, and the voice of the people was most emphatically expressed for the "Constitution as it is and the Union as it was." Never was there a time when it was so important that the people should be thor oughly advised as to the progress and condition of public affairs and of passing events. STATUTES OF INDIANA. GAVIN & HORD'S REVISION.

The second volume of Mesers Gavin & Hord's compile. tion of indiana Statutes has just appeared. This volume completes their work. The second volume embraces all the public statutes of belians now in force upon the subjects to which it relates, and the first all excepting the acts of the last regular and extra sessions of the Legislature. It is a great exceltence of the compilation that all existing statutes on each subject are collected together in the same place in these volumes; so that tile reader can see at a glance all the legislation in force on any given subject. Take, for example, the act of 1852, organizing Courts of Common Pleas-the editors publish the act at large, and they also print, in the form of notes on the same pages containing this statute, all the acts amendatory to it which have been passed up to this time. And so they have done of all the other acts contained in the revision of 1852. The editors have added much to the value of these vol-

omes-especially the last-by the copious and learned notes with which the volumes abound. These notes indicate much labor an legal acumen. They furnish us, in a concise and accurate form, with all the adjudications of our Supreme Court on these statutes. These adjudications being now very numerous, the references to them in the volumes under consideration, will be of great value to the lawyer, and indeed to all persons concerned in the administration of justice. The editors have also referred, Will soon assemble, and the most important questions in their notes, to numerous decisions in other States,
